**Subject:** Invitation to speak at 2017 SETAC meeting

Dr. Kavlock

I would like to invite you to speak at the upcoming SETAC meeting in November 2017. I am co-chairing a session on predictive toxicology. Your perspective and any current data/status on how the EPA is utilizing computational toxicology data, high-throughput data, and models to understand toxicity and evaluate risk would be a wonderful addition to the other topics to be discussed. Below is the information regarding the session and I hope you can attend. Please feel free to contact me with any questions. Thank you for the consideration.

Track: Regulatory Directions  
Session: Current Regulatory Landscape and Scientific Advances in Predicative Toxicology  
Chairs: Kimberly Ralston-Hooper

List of all sessions:
